# MCS28

30 1/2"  
28"

The image shows a technical drawing of a sink, likely the MCS28 model. The drawing is oriented diagonally and includes several dimensions: 30 1/2" for the overall width, 28" for the depth, 16" for the width of the sink's base, and 18 1/2" for the depth of the base. The drawing is overlaid on a dark purple background. To the left of the drawing is a vertical lime green bar with abstract white and light green shapes, including a large circular element at the top and a curved shape resembling a sink's rim or handle at the bottom.
